

# BY\*PAS PARTS CLEANER 5000 NF

HIGH ALKALINE DETERGENT FOR FERROUS METAL WASHING

## **DESCRIPTION:**

Highly concentrated liquid delivers a desired alternative to powdered products. A powerful blend of alkaline and detergents remove the toughest stamping/drawing fluids from deep drawn or stamped "ferrous" metals.

## **CONTAINER AVAILABILITY:**

5-gallon Pail, 55 Gallon Drum, 275 Gallon Totes

## **PHYSICAL PROPERTIES:**

Physical Form	Aqueous
Color	Straw like
Odor	Detergent / Amine
Specific Gravity	1.15-1.25
Foam Profile	Low
Biodegradable	Yes
pH of concentrate	13.8

## **DANGER: CORROSIVE**

Contains: Sodium Hydroxide & Sodium Metasilicate. Wear eye protection and gloves when handling. Do not breathe strong product vapors. Keep lids sealed when not in use and refer to the MSDS for further safety information. Do not use on non-ferrous metal surfaces!

## **ADVANTAGES:**

Liquid detergent is easier to use than powder blends and delivers same or better results without the mess!

Removes the toughest oils and paraffin based fluids from the deepest drawn ferrous parts.

Leaves parts super shiny and rinses well!

Produce fast breaking foam not requiring additional anti-foam when used in spray cleaning applications.

Blended with ISO certification!

## **APPLICATIONS:**

Automated drum or conveyer washers, soak tanks, ultra-sonic, cabinet or any other types of washers

## **DILUTION RATIO'S:**

Heavy Cleaning: 6-10% product in water

Medium Cleaning: 3-5% product in water

Light Cleaning: 1-2% product in water

Use softened or RO water heated to 160-180°F
