MUCK DISSOLVING PELLETS FOR LAKES, PONDS & BEACHES

DESCRIPTION:

Unique "pelletized" technology delivers a special blend of enzymes, trace minerals and safe "sludge eating" bacteria directly to the bottom of the lake or pond removes that gross feeling, odor filled slimy-muck that forms in the depths.

CONTAINER AVAILABILITY:

25 or 50 lb pail

PHYSICAL PROPERTIES:

Physical Form	Solid Pellet
Color	Brown
Odor	Distinct
Density (lb/gal)	N/A
Biodegradable	Yes
Use conditions	Use in neutral pH range

PRODUCT CAUTIONS:

Contains: Catalysts, minerals and bacteria. Wear gloves when handling this product. Wash hands after touching pellet with anti-bacteria soap. Store with lids closed, in room temperature and out of direct sunlight. Best if used within 1 year of purchase.

Refer to msds for further safety information.

ADVANTAGES:

Pelletized technology sinks to the bottom directly contacting the muck for fast results allowing you pin point problem areas affordably!

Naturally remove heavy muck deposits that lead to cloudy, smelling bodies of water when disturbed.

Attract more people to the water by regularly treating beach areas by keeping beach sand clean and odor free.

Biodegradable pellet!

DILUTION RATIO'S:

Complete Water Body Treatment:

Use 3# for every 1,000 sq ft. Apply 2-4 times per year. Apply evenly over surface.

Problem Area or Beach:

Use 3# for every 1,000 sq ft. and apply 2 times per week for 4 weeks. Then apply 3# for every 1,000# sq. ft every other week for maintenance.

*Apply when ambient temperature is 50-90°F and dissolved oxygen is over 1.0 ppm. Aeration units will enhance pellet performance!
